

CULTURE. EDUCATION. SPIRITUALITY.

Our three divisions ensure that our organization meets the nuanced needs of the southern Jewish communities we serve. We provide everything from comprehensive religious school support (including a fully-scripted curriculum for early childhood through high school) to itinerant and remotely-accessible rabbinical support to multi-stop cultural programming tours and more.

BUILDING BRIDGES.

The ISJL doesn't just provide excellent programming for Jewish communities. We also strengthen interfaith connections, provide secular literacy programming, and serve as positive ambassadors for the Jewish people throughout the South and beyond.
